Education

2012-Present **BS, Computer Science**, *Rutgers, The State University of New Jersey*, Newark, NJ, Minor: Mathematics.
GPA: 3.5

Skills

Proficient With

languages Java, Go, SQL, Kotlin, Groovy, Shell
technologies Android, Bash Scripting, SQLite, PostgreSQL, IntelliJ IDEA, Eclipse and MAT, Adobe Photoshop, Illustrator, Flash and Premiere Pro, Windows, OSX, Ubuntu, Git, Vim

Have Experience With

languages C, C++, HTML, CSS, JavaScript, Python, Swift
technologies iOS, Final Cut Pro

Side Projects

- February 2015 **Rutgers Course Tracker (git.io/vvhsv)**,
Android SDK, Dagger 1, Espresso, RxJava, JUnit, Mockito.
- An Android application to view Rutgers courses and subscribe to their openings.
 - Created with Android Studio with an emphasis on design and utilizing the latest APIs and technologies.
 - Built on a MVP architectural pattern and makes thoughtful use of **RxJava**, **Dagger** and **Retrofit**.
 - Mocked dependencies with **Mockito** and utilized Dagger for dependency injection to create comprehensive JUnit and Espresso tests.
 - Published on Google Play: <http://goo.gl/Kft1MY>
- 2014 – present **Vapor for CloudApp (git.io/vnnTA)**,
Android SDK, Retrofit 2, Kotlin, Dagger 2, RxJava.
- An Android application to upload and view files to CloudApp's Amazon S3 with an emphasis on making files easier to share.
 - Rewritten to implement the lessons learned from developing Rutgers Course Tracker while adhering to the material design spec and to utilize bleeding edge technologies.

Experience

- 2010 – 2012 **Web Developer**, *High School for Medical Professions (HSMP)*, Brooklyn, New York.
- Developed and maintained HSMP's website to allow students to view information about their school.
- 2010 – 2011 **Graphic Designer, Video Editor**, *City Gridiron*, Brooklyn, New York.
- Designed the logo and graphics used in the first season of the TV program on PIX11.
 - Edited and organized footage for the final cut and QA before uploading to PIX11 servers.
- 2009 – 2013 **Freelance Web Designer**, *99designs.com*.
- Worked closely with dozens of clients to finalize a conceptual design for a new or revamped website.
 - Achieved Platinum Designer rank for demonstrating the highest caliber of conceptual thought and technical execution in designs.
